IN presenting this brief list of Seeds, Bulbs, Plants and Insecticides we wish to thank our patrons for their past favors during our first year in business.

Our desire is to serve everyone who is interested in Plant Life from the humblest owner of a window box to the possessor of a vast country estate.

We buy only from the best sources, and our aim is to supply only the highest quality of everything we sell.

*A GLIMPSE OF THE POOL IN A SUMMIT ROCK GARDEN
LAID OUT BY US.*

We cannot, however, guarantee results as retention of life is beyond human control, and seeds and bulbs are but living plants in a dormant condition. We desire that our patrons fully appreciate this when purchasing from us.

We specialize in Rock and Natural Gardens and would be pleased to show anyone who may be interested, some of the work we have already done.
